broadcast  
easier*

# Beyond leading edge connector technology

Producing high profile sports events and motion pictures requires equipment to work first time every time.

With over 25 years of experience in broadcast and motion picture, we offer more than just leading edge technology; customized consulting, cable assembly, on-site installation and training are part of the comprehensive customer package we offer.

With a range of products for just about any application, we are here to make your life easier. Our plug and play solutions are designed for reliable performance in extreme environments, and engineered for field repair to reduce downtime. All backed up by our worldwide sales and service network.

## 1 SD/HD Triax
